

BuyTap One Pager — Quick Facts (Draft)

Domain: buytap.trade

Entity: BuyTap Inc. (U.S. registered, operating in Kenya)

Address: Building 800, S Figueroa Street, L.A. Live, Staples Center, Los Angeles, CA 90017

Last Updated: 2025-08-21

What is BuyTap?

A **peer-to-peer token marketplace** where users buy and sell tokens directly via M-Pesa, with **transparent durations** and a **two-step confirmation system**.

How It Works

1. **Pending** → You place an order.
2. **Paired** → Matched with a seller.
3. **Active** → Seller confirms payment, countdown begins.
4. **Closed** → Order matures; buyer gets return.

 If obligations aren't met, order may be **Revoked**.

Token Plans

- **4 days → 30% return**
- **8 days → 65% return**
- **12 days → 95% return**

(Returns are platform rules, not guarantees.)

Payments

- Direct **M-Pesa peer-to-peer**.
 - Buyer pays seller, uploads proof → clicks **Made Payment**.
 - Seller verifies and clicks **Mark Received**.
 - Countdown runs automatically.
-

Security

- **Two-step confirmation** prevents fraud.
 - **Disputes** resolved with logs & M-Pesa proof.
 - **Sanctions:** late payers, non-confirmers, or fraud = suspension/ban.
-

Why BuyTap?

- Direct, **no wallets** → you stay in control.
 - Transparent timelines (4, 8, 12 days).
 - Mobile-first dashboard.
 - Community-driven growth & referrals.
-

Disclaimer

BuyTap is **not a bank or investment company**. We never hold your funds. Use responsibly; only trade what you can afford to lose.
